

PRESS RELEASE!!

DJ Webmin adds more features based on trial membership user suggestions

MINNEAPOLIS, MINNESOTA. – January 28, 2002 -- DJ Webmin now offers features that DJ's have asked for.

Since the December 2001 introduction of DJ Webmin, the web-based disc jockey booking administration tool by Mobile DJ Network, the mobile entertainment industry has been interested to see what it can do for them. A large budget was invested in test market advertising of a no obligation 30-day trial of DJ Webmin, and the test was a great success. DJ Webmin founder Barry Cedergren said, "The test of the interest was to give DJ's a 30-day trial with no dollar amount obligations, this way they can see what it can do and not be afraid of getting charged whether they like it or not. This was the best thing we could have done because the wonderful disc jockeys in our market were happy to give us suggestions that would solve their booking problems with DJ Webmin. Most of those suggestions have been implemented now, it's the most powerful tool available to DJ's."

DJ Webmin feature additions include:

- A visual calendar showing/linking to event bookings for that month
- Text delimited data backup for venue, event and customer data
- Repeat Customer List features for easy repeat event bookings
- A "New Look" for easier navigation and professionalism

What additional features should you look forward to in the upcoming months?

- Ability to email contracts, receipts, DJ Info sheets to the recipient
- Event Planner/Request List the customer fills out online, submits to your DJ Webmin
- Various helpful event booking financial reports

DJ Webmin is offering press release recipients the ability to review DJ Webmin and all the features it offers with a full version membership account. On the World Wide Web visit <http://www.djwebmin.com> and choose the 30-Day Trial option. In the signup form comments enter promo code 466237 and we will unlock your trial to an unlimited membership.
